00 Gmc Yukon Denali this is a mechanics special truck runs and drives but needs work and has high miles pleae read whole ad before responding.
Things know to be wrong with it:
1) Transmission makes whining noise when put in gear. (No noise in park or nutral ans still shifts perfect)
2) Steering is a bit sloppy
3) Gas gauge not working
4) Abs light on
5) Key is worn so you have to jiggle it in the igintion

It dose run and drive I drove it 30 miles with no problem
5.7 liter 350 vortec engine (runs perfect)
Automatic transmission
4X4 (4 wheel drive works)
280,500 miles
2 tone leather interior
Heated, power seats
Heated mirrors
Bose stereo with tape, cd and cd changer
