At The Joerling Group, we don't want to simply LIST your property, we want to SELL it. Creating a PAYDAY for you and our team is what this is all about. How you want to be communicated with through the process is your choice. Tech savvy agent skills make our group a premier choice when selecting your professional brokerage.

BUYERS AGENT: If you are a buyer, whether you are a first time homebuyer or someone that has done this several times, Donna Joerling wants to assist you with that process. Being a buyer agent is about listening carefully to what buyers want and need in their properties, finding that property through multiple means, and then negotiating a contract that works for both parties. Buyer protection is part of the process, and as a buyer's agent, advice will be given along the way all the way up to the day of closing at the local title company.

Donna Joerling history and skills in real estate is the key to this successful real estate brokerage company. "When I was raised on the farm, we worked from morning to night together as a farm family. Alongside of Mom and Dad we learned what it takes to make a farming operation successful and the team effort that is necessary. There were no slackers on the farm, or we didn't eat. That skill and work ethics has proven extremely valuable as today I work with my clients to help them be successful in their real estate transactions. I have sold multiple properties for families and my business is based primarily on referral business. I follow the GOLDEN RULE; Do onto others as you would have them Do onto You! It never fails, and I won't let you down. Your satisfaction is the future of my company, and you can count on me!"
