I now know more of what I m looking for. Thank you all the answered my ad before. I am looking for a Male English Mastiff/ Boxer cross or similar breed. I am need of a guy that is on the taller heavier side as he will be trained to wear a harness with a bar for me to hold onto so that I may walk instead of always using assitive devieces. Of course no guy will be allowed to have any weight on him until his growth plates are completely healed. This happens most often at about 2 years of age. I do want a mix as I find them at times much easier to work with. I would like a puppy, but would consider a dog that is up to two yers of age if he is house broke, kenal trained and has had at the minimum of basic trianing. I slso want him to have had his shots so that he is ready to take out and to learn what I need for him to do. On the puppy side of things I would like one that is up to date on his shots and has been worked with as far as kids, other dogs, cats and is on his way to potty training. I know that this seems a lot but if you start them out as young a three days you would be surprised as to how they just soak up the information that you give them. Plus they seem to show more of how they wish to learn which is very important for me as I will be continueing his training to become my second in command service dog as my gal still is able to do some things for me.

I know that most want way to much of a rehoming fee but let me know haw much time in training and in shots and other basic needs for a very little guy. I can then see where I can fit my money in as I am a single gal who is disabled and lives on a very tight budget but is in need of the right guy to start my training for my newest service dog. I will let you know up front that your little one or bigger guy will be loved from day one till the day that he should pass in my arms if at all possible. I also want you to have pictures and if possible see him as hee grows into the kind of guy that I need and that others wish they could have.

Th downside of things are that you may not like the fact that he is big and is living with myself, Ginger my boxer/frenchie cross and a cat in a 1 bedroom apartment with a small balconey. Well that is where training with my walker and scooter come in as he will learn soon after to walk with me and maybe even a slight run for as long as is needed each day and more than once as potty training comes in with the walking. I also will be training him how to use potty pads on the balconey for times in which I can not get outside. Your boy will be on the road to becomeing a very well loved guy in todays society of dogs.

Please send me an e-mail with your phone and e-mail with as muuch info that you care to tell me. Also let me know if you are on a bus line or other public transportation as that is my way of getting around.

Thank you so much for helping me in my quest to find the right guy and to my [illegible] I am not in a [illegible] hurry so if you or someone you know that might have the right guy in the [illegible] please [illegible] as I will [illegible] right [illegible] myself,
