GenClassifieds.com

edit, add graphic design, clean up word press site (online)

Location **Iowa**
https://www.genclassifieds.com/x-505264-z

I have built a WordPress site with a 2010 WP theme and need it cleaned up to a professional look. The site has the content, pics and logo, but this stuff needs placed and positioned to make the site flow with the tone. Need to change the menu color and take off the comment box at the bottom of each page. Also need the footer branded to my site. Please reply with details and I can email you the site. Lets get to work :)
