Hey all!

I need some journalistic-style photos and video clips of the big three custard stands in Milwaukee - Kopps, Gilles, and Leon's. A few great exteriors, interiors details and people enjoying the goods, and if possible some short video clips of how it all works.

This can be your existing work or you can go shoot something. Let me know if you're interested / send a link to your work, and I'll give you the full details. To be used in a web video series for a food blog.

Thanks!
