If your reading this ad, then you havent been getting lucky with the ladies.
Hey! Shit happens, dont let that get you down!
Things happen everyday - few examples:
you got dumped and felt comfortable

you used to be active socially/physically but focused on school and career and forgot how to talk to women

Or you just never really knew how.

But looking on craigslist online isnt going to get you the excitement of getting a girl to like you and closing the deal and even a hooker cant make you feel that awesome(unless you have 10k+ for an hour)

We are a group of guys, and we chat up tons of women. We've helped our friends and family gain the confidence they need to chat up women, get them to like them, and close the deal(what you decide after is your choice)

We decided to offer our services of wingmen and train you how to talk to women and get progress.

Wether its to get a quick lay or get a girlfriend who will stick around. We provide the tools and assistance. Your choice what to do from there.

We plan weekend outsets, night outs, show you what we can help you achieve

That's more information and pricing [illegible] find this [illegible] but it's [illegible] exactly

And make craiglist a thing of the past, well at least this
