Hey Everyone.

We are a team of 5 people who are putting together a crowd funding campaign on indiegogo for the purpose of funding our small, but mighty business.

Our business model consists of bringing affordable and reliable cars to the public with 0% interest financing along with "everybody rides"

Here is the break down of how we operate.

We buy cars from the auctions where we get deals the general public isn't afforded. We then recondition the cars, inspect them, add in our processing fee, our warranty fee, our labor fee, and then offer these vehicles to the public with 0% interest financing.

But, best of all as long as you have a down payment and some form of utility or cable bill to verify your address, you get a car, guaranteed!

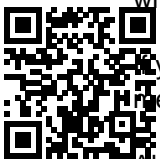

We are looking for any and everyone interested in social media promotion when we do live in a few weeks.

If you have a large following through fb or other forms of media, we want to talk with you.

Also, we will be looking for team members to continue working with us at our location after the campaign ends and we get setup in our new building.

If you are interested please reply back with your name, phone number, and some details about your social media audience.

During our test phase, there will be no reimbursement for the social media
