What is wrong with this island and pets... Especially dogs! Don't the people here know how hard it is to get them in? They go threw various tests??. If I where going to be ok with pets in any state it would be this one! However every other state on the mainland has no problem with Animals! My fiancÃ© and I can't find a rental that is dog friendly, we have two beautiful well trained boxers and we are great tenants! We will definitely find a place but it's annoying how uptight people are about pets! Get a grip people! Just a heads up, after the 1200 per dog for quarantine we just spend another 300 to get a local shrink to give us papers saying you can't discriminate on our animals anyway because there companions! Then if you have one grievance about not letting us rent we can sue the crap out of you! That's what this search is coming to! Beautiful place and ignorant!
