Do you have high cholesterol and high blood pressure?

Doctors at Highland Clinical Research are conducting a clinical study testing an investigational medication for those with both high cholesterol and high blood pressure.

Qualified participants must be 18 to 80 years old and have both high cholesterol and high blood pressure. Those who qualify may receive the study drug and related medical care at no cost.

For more information on this study and to see if you may qualify to participate, call Highland Clinical Research at or visit highcholesterolusastudy.com.
