I have a 97 ram 3500 1 ton dully 4x4 5.9 Cummins that I need the front passenger axel seal replaced. I don't have the tools to replace the seal. or a puller to remove the hub assembly. I stay in lewes. give me a call, shoot me an email or a text. I need this fixed asap.

people keep calling my giving me the run around...
I need some one who has done this before. it's not just a regular axle seal u pop out and put Back in. it's at the end of the axle shaft pressed into the front diff.
