QR Code Link to This Post We are a small non profit IT outfit that provides IT support & svcs to other non profit organizations based in Boston. Probably the best fit for this gig would be a student attending MassART, Wentworth, Northeastern, or any of the other schools, they are all close by to us, & that can do basic creative website work. This is more than just website work, it means developing the vision of how we present ourselves (present website is tot outdated) and also introducing a new concept of a non profit IT educational program for disadvantaged youth & newly arrived immigrant population that desires to work in non profit organizations and have enough knowledge to be the IT Liaison and IT support person in that capacity. Willing to let the right person(s) have creative control.
Call to discuss, phone call would work best and landline tel number is supplied under "reply". (landline protected by NOMOROBO to discourage call centers and).
