End Leaf Farm Table (2500 USD)

Location **Kentucky**
https://www.genclassifieds.com/x-776258-z

QR Code Link to This Post This Farm table / Dining room table is made from reclaimed Oak wood found in old tobacco barns in Western Kentucky. As the pictures show, the most interesting feature of this piece is that the leaves slide in from each end. So, this table can go from 4' feet to 6' feet to 8' feet in a jiffy. The leaves can be stored away and brought out for special occasions or if company just stops by. This piece is 30" inches wide and 30" inches tall. With both leaves in this table can easily seat 10. 2 Benches complete the look. Benches 50" long x 18" high. Benches are also made from reclaimed barn wood. All pieces are stained a golden oak finish with several coats of polyurethane that will make this table useable for years to come. Follow my page on Facebook at old oak blocks. No text : Call for.
