QR Code Link to This Post 1 male rescued kitten named Oscar (Mayer) ready for a new home. He is an orange tabby with a white chin and belly. He was rescued from the outdoors and so was a ferral rescue kitten. My granddaughter and I have worked patiently to show love and tame this little tyke and his sister that was rehomed just a bit ago. He is approximate 10 weeks old and will do best in a home where there is already a cat as he is very social. Because he was a rescue from the wild and still a bit skittish I do not reccomend a home with small children. He will need time and space to feel safe and loved. My granddaughter calls him the teddy bear of the family as he has a mild disposition. I have not taken him to a vet as I am on a small fixed income. I am asking a small rehoming fee of $50.00 as I want to know that only someone willing to truly love and care for him will take.
