

AKC male and female chow chow 12 weeks old.

Location **Massachusetts**
<https://www.genclassifieds.com/x-259142-z>

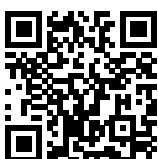

I have a AKC male and female chow chow 12 weeks old. White and brindle. Very good puppy I just don't have time for him, now that I'm working a lot. He comes with his toys two big bags of dog food, his kennel, leash and harness as well as a collar. He has been microchipped and has been up to date on all his shots. Re homing fee applies. Unless you know about this breed and how picky they are please don't respond. I want him to go to a good and a non busy household who has time for.
