

# Experienced Rabbit sitter (North Shore)

Location **Massachusetts**

I am an experienced rabbit sitter on the north shore. I charge far less than any kennel would. I have had rabbits for 15 years. I take amazing care of my own rabbits and would for yours too. All i ask is that you provide his food for me to give him/her.

Examples of things i feed my own bunny are: kale, collard greens, lettuce, apples, strawberries, and of course hay. My bunny gets lots of love and and gets brushed every day, so would yours.

If you need a bunny sitter please contact me to discuss!
