## CUMMINS OWNERS!!!!

Running a special on heavy duty built cummins 48RE 47RE 518/618 transmissions with a new billet torque converter for only \$2500!!!! These are built to handle high horsepower/torque cummins engines. As long as you have a great aftermarket cooler system this transmission will last a very very long time. Dodge cooler systems are a major problem for the transmissions. If you pull daily or have a programmer this is the transmission you want for half the cost of the big name brand companies who overcharge for the same build. Heres a list of what's in side.

- High energy alto clutches with hardened teeth
- High energy wide raybestos bands
- New kolene treated steels
- stacked clutch packs made for pulling
- High volume pump
- Custom Transgo shift kit
- Transgo valve body updated plate
- New borg Warner adjustable pressure solenoid
- New pressure switch
- New speed sensor
- New gaskets seals bearings washers and filter

## New CVC or Precision BILLET TORQUE CONVERTER

This transmission is built and assembled, cleaned, inspected, and even has a fresh paint job. It's in great shape, degree, and you want. I have a few colors so the engine is all up to you. Transmissions are built with a 12 month 2500 mile warranty. If you have any questions please call or text me at 228-233-nine797. I also have more upgrades for this transmission including a deep transmission pan and a new clutch billet torque converter. I can also rebuild any other transmission that you may have. You won't be!
