I intend to put in a 20,000sf garden this year.

I will need help making that happen.

10 hours labor per work on garden things covers room, and all utilities.

Here is how your rent obligation will work;

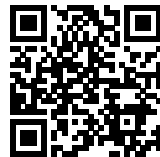

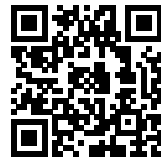

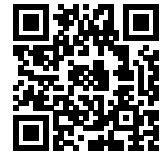

1) \$600 to move in, which covers first month, and deposit.

2) beginning the first week moved in you will work with me in the garden/yard 10 hours per week. As long as you keep to that commitment, come the first of the next month your rent is paid.

3) my gardening endeavors are a revenue stream for me, it is entirely up to you, but if you prove yourself to be reliable, hardworking, and a self motivated person, whatever dollars the garden produces I will share with you.

4) a second private room is available for extra consideration.

Text three one four seven nine five nine six zero one if interested. I don't answer unrecognized numbers.
