Up for sale is a really nice bird cage and play stand that I have owned for the last 2 years. Original cost was \$750.00 for the cage and \$175 for the playstand. The cage is being sold for \$450.00 and the playstand is \$165.00. Will sell as a package deal for \$575.00. There are a few upright rods/slats missing from the front right above the main door which my Macaw bent and pulled out. The opening is presently closed off with flexible cable. Easy fix, I just don't have the time to deal with it. Cage has 3 feeding doors with latches, 3 new bowls and 2 perches. Playstand is on wheels, comes with 2 new bowls and several toys. Both in excellent like new condition and is ready to go! Call or text with any questions or if you would like to make arrangements to look at it.

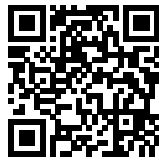

Cage measurements...3'wide x 2' deep x 5 1/2 tall

Thanks for your...
