

Tonneau Cover

Location **Nebraska**
<https://www.genclassifieds.com/x-260477-z>

This is a Fiberglass Tonneau cover made by Astro for a Ford Superduty Shortbed pickup. I have removed it from my 2002 F-250 as I have a flatbed on it now. It is Arizona Beige Metallic in color and is in really good shape. It does have a little paint that is flaking off on the very back of the cover. It comes with gas shocks to raise and lower the cover. It also has a light so you can see what is in the box. It is really easy to remove and install the cover on and off the pickup so you don't always have to keep it on. It does lock closed so you can keep things secure in the bed of your pickup. It is currently hanging in my garage so the pictures do have some dust / flies and etc on it in the picture but it will clean up very.
