Hello I am posting this ad looking for other young people my age, 18-25, who are interested in or already practice magic. I am looking to either teach someone or form a group with like-minded individuals who are into magic, the occult or paranormal and learn together. Contact me by text or email with a little introduction about yourself. Looking for serious replies only.

\*Please note, I am not wanting to receive any messages or emails from certain people who feel the need to comment disrespectfully in a religious manner. If your beliefs do not correspond with what I'm looking for do not bother replying. You know who you are, it is rude and you will be ignored. Thank.
