

IT FIELD ENGINEER (Bremerton)

Location **Washington**
<https://www.genclassifieds.com/x-261251-z>

I am looking for 2 Techs that I can keep pretty busy!!! I can not stress enough a reliable car is needed!!!

The Field Technician will perform repair and installation dispatches for Computer Networking, Basic Wide Area Networking and telecom network equipment. The majority of field technician's time would be spent doing hands on installation and repair of new service and repair of existing installations while maintaining job time-lines. Field Technician must rely on previous experiences and a high level of judgment to maintain quality standards and improve productivity. Installation work includes the physical placement of cross-connects, category 5e cable, wall jacks, hardware, and communications equipment. Repair work involves swapping customer premise equipment (CPE), troubleshooting inside wiring (IW), and testing circuits. Dispatches may include site surveys, pulling and terminating cables, determining and implementing required pin-outs, installing and configuring equipment, testing and documenting installations, dressing/cosmetic cabling and labeling. Computer, Point-of-Sale (POS), and PBX experience is also helpful.

We are a company that supplies "hands and eyes" troubleshooting support for national and international Enterprise companies on a per-job basis. Work is customer driven, so there is no guarantee of work volume. Please be aware that the position offered is a 1099 contract position.

Many of the jobs that are dispatched will be during standard business hours; however there is the occasional after hours work.

Required Skills/Experience:

Must have basic understanding of DSX-3, DSX-24, DSX-25, DSX-26, DSX-27, DSX-28, DSX-29, DSX-30, DSX-31, DSX-32, DSX-33, DSX-34, DSX-35, DSX-36, DSX-37, DSX-38, DSX-39, DSX-40, DSX-41, DSX-42, DSX-43,
