Hello, I have a nice used Tama Double Braced Hi-Hat Stand and Clutch. This stand features an adjustable tension response (see photos for details). This stand works great, but could use a small repair. The chain pin which attaches to the push-rod has come out and is being held together with some metal wire. The stand works perfectly, but it's worth mentioning. See photos for more details on the item's condition and description. And feel free to email me with any questions. Even with the small repair, because of it's condition \$40 is a fair price and so I'm firm on that.

Thanks,
