Two new Ford hubs for a Dana 50 or 60 front axle. Part number E5TZ-1K104-A. These measure 4 inches across. These are just the outside parts, none of the internal parts. Look on Ebay, these are going for anywhere from \$60.00 apiece to \$225.00 for a pair. I think \$75.00 is a fair price. I took one out of the box for pics.
