Have a broken gaming system that you want to get fixed? Or, looking to buy a new gaming system or sell your broken one?

No problem. MVCs Electronic Repair is here to help.

We offer 24 hour services of repairs to your dead/non working gaming systems. We also purchase broken systems for no more then \$20 a system. If you want your system repaired which also includes fully cleaned. Our diagnostic fees are \$15. Repair fees for an XBOX are \$20, Playstation \$25 and Wii \$25. After your system has been repaired we will send pictures and a confirmation message that your system is finished and upon your pick we encourage you to view your system in working running condition before payment is received. We will not allow your system to leave if payment is not made upon pick up. But we do give a thirty day payment option as well with no interest up to 30 days after payment has been received you may take your working system and have happy gaming indulgences. Thank you for choosing MVC's electronics repairs.

Some of our services:

- Clean and clear all dirt grim dust debris and any other obstructions inside the consoles.
- Fix the YLOD(yellow light of death) on playstations.
- Fix all forms of the RROD (red ring of death) on xbox.
- Solder loose/broken wires or chips on mother boards.

- Key exchanges on Xbox as long as the original drive and new drive are in hand.
