I am looking to rehome my sons guinea pig, who he named Mickey. He used to love him but as of lately, he is terrified to touch the thing anymore. He's very sweet, has never bitten my or either my 4 or 2 year old. He has gathered 2 different sets of babies with the same female. He will come with the cage, water bottle, food dish, whatever food I have left, the bedding I just got a huge bag and there's not much gone from it, the hay, any treats I have for him, and his hide-away house.

Asking \$40 for.
