

Low Cost Computer Repair FAST Valley Wide Service (Valley Wide)

We at FoxeTech will help you to install and design fault tolerant setup which requires minimal management and maintenance drastically reducing total cost of ownership. We cater to small to medium size organizations, each level of client receiving our thorough attention to detail and unique brand of service.

We work with you through all the steps required to install and setup the server environments required for your business needs and have the best team of FoxeTech trained technicians ready to rectify any challenges you might face in the process. At FoxeTech we can help you with the following requirements for installation and setup of servers:

Evaluating your organizational structure and advising you on the technologies required to help enhance your business. Helping you select the right products to get the best out of your technology investment. Work with you through the initial setup and configuration. Troubleshoot issues related to all server deployments.

We provide Setup and Install services for the following technologies:

1. Services
 - o Microsoft Windows Server Family
 - o Microsoft Exchange Server
 - o Microsoft Active Directory Domain Environment Setup
 - o Microsoft Small Business Server
 - o Setup & Install
 - o Microsoft DNS/ DHCP Server Installation & Configuration
