Hello,

I am offering a very nice room that has a separate entrance, It is really a big room with a big closet. You would also get Hi speed internet and access to Cable TV. The great thing is we would only need help weekends and a few other times during the month as needed. You would need to pass a background clearance , have first aid , cpr etc . If you have some certifications already GREAT! We can provide the classes for you as well. If you have any experience with special needs individuals that is super. A positive attitude and a patient demeanor is a must. You would have a lot of free time hours that you can use for college classes or another job as well.

Thank You.
