Will pay a fair price for an MBA level student/tutor to take and pass with a B final exam ONLINE! I have a B average but exams have always made me nervous...

This is a serious post. This a great chance for someone who has passed this class or tutors this class to make some extra money. Nothing to make you rich or pay your car note just nice pocket change.

Email for more details and number and a look at the practice exam. THIS IS A SERIOUS
