

Looking for a home to rent in Wheatland (Wheatland)

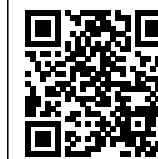

Location **Wyoming**

Husband has asked me to leave. Though I never thought this would ever happen and though do not want to, I guess I have to submit to his wishes. I have no other choice but to find a place that will accommodate myself, my school aged child and two well behaved and house trained dogs.

I work in the medical field in Wheatland and plan to stay with my current employer until retirement. I am able to afford around \$500/month in rent. I am in my early 30s, quiet, clean and I pay my bills on time.

I don't see much for rent in the Platte County Times that suits me. We need a yard for the pooches to play in at minimum. If you have something and would be interested in my broken family as tenants please email me with details.

Thank.
