

Senior Java Web App Architect Developer needed (fremont union city newark)

Location **California**
<https://www.genclassifieds.com/x-279725-z>

We are looking for a experienced Senior Java Web app Architect / developer to work with us.

You will design and develop a new robust, scalable and secure architecture for a java web application based on our requirements.

This could be your part-time gig for now and with a very good chance for us to hire you full time.

We are bootstrapped currently so the pay will be very low initially like the rest of the team.

Please no consulting companies, we are looking only for individuals who can drive to Fremont for regular work hours.

Please respond with your.
