Professional Musician with Master's Degree in Education will combine established principals of learning, with essential guitar, bass or keyboard and music theory, to enable you become part of the mainstream of music, avoid the common mistakes and learn to play legitimate guitar, bass, or keyboard in the quickest possible time. If you are a beginner, I will be sure that you avoid the common mistakes that cause some people to give up. If you have time and money invested in an instrument and are not continually progressing, I will analyze your mistakes to be sure you are will continue to advance to the next level and continue to experience a sense of accomplishment. Every aspect of music is thoroughly explained, including - creatively training - improvising - understanding chords - learning how to substitute chords to make your music interesting - reading and performing like the pros! After a few lessons, you will experience continuous progress. Jack 410-653
