

Wanted 1 baby female rat

Location **Maryland**
<https://www.genclassifieds.com/x-280279-z>

Hi, if anyone has a litter with an odd number of girls-- my boyfriend and I have two young female rats and are looking for another female so that when one of them dies, the other will still have a companion. our babies are about 3 months, so we are looking for one that is younger than that.

Thanks in!
