Looking for a Valentine??? We know it's over, but Franks's search continues....

Frank is an all-around great guy! He LOVES human affection and attention. He jumps up beside me when I am in bed and sleeps on the pillow behind my head. He also loves to follow me around and purrs so much you will wonder what he is telling you! He will also climb you and wrap his little arms around you as if he is giving you a hug. \*\*\*He can become overstimulated and play bite so no young children.

He lives in a home with other cats and gets long great with them. He also lives with 2 cat savvy dogs that he doesn't mind at all-they coexist very well.

Some things you need to know... Frank is 6 yrs old, I am fostering him through BARCS. He is neutered, up to date on all shots and FLV/FIV NEGATIVE. He is also micro chipped.

Frank has Irritable Bowel Syndrome (IBS) and will have to be on prescription food for the rest of his life to prevent diarrhea. To give you an idea of what this means, a 17 lb bag of the food is about \$60 which should last at least 2 mths. This is NOT contagious to other cats, but if you have other cats they will likely have to be on the same food so he doesn't get into any other type of food. It's really a small price to pay for such an amazing.
