

# lost orange buoy in water (lahaina dock)

Location **Hawaii**  
<https://www.genclassifieds.com/x-280877-z>

We are doing scientific research and lost a tag at sea about 3 pm on Feb 20th. It looks like a brown cigar with two suction cups ziptied to it. And an orange cylinder buoy with an antennae out of it. If anyone has a vhf receiver and is out today or over the weekend, it is broadcasting at frequency 164.098. We would really appreciate knowing if you get a signal from it. Or if you find it.

Thank you!
