Hi!
Guys I have a dog day care at home, I have three dogs: two puppies and a huge lab.

Lots of food. I work from home & I went into a shelter today and notice all these dogs (nothing bad about the shelters but it's just very impersonal)

dogs need attention and I understand there is lots of dogs in a shelter way too many for them to be loved.

someone I knew was moving and they could not keep their dog, they told me to take it to a shelter and I just couldn't so I put up an ad for a dog. I found her a home and the people gave me \$100, with those \$100 I got a lot of food and even got a dog lover to help out. I put up an ad and got a lot of responses with people that were moving and needed their dogs to be taken care of so I offer them to give me the dogs & I will take care of them until I (I have more time then the owner) can find the perfect home and to the new owners I charge a rehoming charge and with that I buy food, leashes and

toys for the dogs.

It's a very project and if you like to volunteer you can help. I will make sure they are loved. I know you really need to find a good home for any and I want you to just leave it w/ anyone. I will find a good home for any and
