I have a queen sized box spring and metal bed frame that I need to have removed. They are in good shape, but I got a new bed and no longer need. I'm willing to pay \$25 for their removal (just down one flight of stairs and I can help - not a big job but I don't have a truck). I am trying to get this done today - serious inquiries only please as I will need to schedule my day around pickup time.
