#### Cleaners You Can Trust

TX carpet cleaning is a service you can trust. When you let us into your home or office, you can rest assure you will get exactly what you paid for. We have no hidden charges, we play no tricks, our reputation is just too valuable for us.

#### King Of Your Castle

Your home is your castle and in it you should get the royal treatment. TX carpet cleaning was founded exactly for this reason, to provide our customers with the cleaning treatments they deserve. We are not just another cleaning service. Any carpet cleaning service can remove spots, but do they do the extra mile like we do? Do they clean those really hard to get areas? Do they treat your carpets as if they were their own? TX Carpet Cleaning is all about trust. Our research has shown that the most important aspect of a cleaning service is the confidence the client gets when deciding on who to invite into his private home.

#### Trustworthy, Efficient, Affordable

TX Carpet Cleaners carries out each cleaning session individually and respectfully. We stand behind our promises, and often tailor fit the cleaning process exactly to the clients requests.

#### Pre-Cleaning Inspection

---

Often we encounter a suspicious look from homeowners who have been fooled in the past by either carpet cleaning scams or over priced branded cleaning services. Our method to ease our client's hearts is fully explaining to them what to expect before the cleaning session begins. This is in order to avoid any surprises or disappointments. We inspect and mark every stain and every spot on your carpet and comb your residence for things only the professional eye can spot.

#### Cleaning Walk through

Upon finishing the preliminary inspection we explain the home owner just how much time the cleaning and drying will take. We do this to let you enjoy your free time as you choose. All of our staff are homeowners in TX, just like you, and have been working with us for more than 10 years, so your home is safe. We are also fully insured in any case of the slightest damage.

#### As Green As You Want

We encounter many clients with a healthy conscience not only for their home but also for the environment. TX Carpet Cleaning is a leader in creating innovative ways of keeping our environment safe for us and our children. With this in mind we have developed many techniques for green cleaning and allergy relief. These techniques vary from using only natural shampoos to using slightly modified types of cleaning solutions. You can choose the right method for you, just ask our office upon scheduling or our technician at your home.

Start Today, Ease Your Mind

I have used EQ a number of times in the past year, both for personal moves and for business moves for my employer. Jack, who schedules the moves, has always been responsive and professional. I believe I have had a different team for each of my moves and although, until this move, they have all been great, Alex K and Alex Elite were outstanding

????????????????????????????????????????

The single star is solely for the salads in the Deli Case at this particular location. They are shockingly bad. There. I said it. My recent visit was the final straw: I brought home a container of potato salad, which based on previous experiences, was one of the safer bets taste-wise, aside from the occasional undercooked potato. I did not even bother to ask for a taste beforehand, which I often do--because I figured it would be decent. Alas, "decent" would be one of the last words I'd use to ultimately describe this potato salad. I took one bite and spit it out. It had such a strange, off-putting flavor, I was afraid I was going to wind up with food poisoning. I was actually going to return it to let customer service know, but too much time elapsed. But yeah, I don't want anyone else to experience such a scary, scary excuse for potato salad.

????????????????????????????????????????

This was, by far, the worst of WF's culinary crimes against deli salads. But there have been other minor offenses. Like adding so much raw garlic to a kale salad so as to repel every vampire in Mystic Falls (aka where Vampire Diaries takes place). (And I love garlic!) Or how about drowning a shredded collard green salad with too much dressing? Too much bland dressing. In fact, a little salt and pepper would go along way here. Extreme blandness, in fact, has probably been the biggest offense for me,.
