Website programmer needed for an online advertising business. You code (which I know a little too) and I provide the start up costs and marketing plus expertise for the business.

I am seeking a long term partner. This businesses has been heavily researched and has great potentiality of great income.

This is a start-up with a partner relationship and all compensation (both yours and ours) will be based upon income from the website. A group of individuals or an individual is fine.

When you respond please answer the following

- 1) Are you a group or an individual?
- 2)Do you understand that you will not get compensated until the website makes an income, and that this is a partnership?
- 3)What languages do you code in?
- 4) If any , provide examples of your previous.
