## GenClassifieds.com21 inch snow thrower. older but goodie (100 USD)

Location **Nebraska** https://www.genclassifieds.com/x-282219-z

older MTD snowblower 20.5 inches wide 16 inches tall. Regular maintenance new belt last year. Runs good. One little quirk though is that the recoil broke time ago and so it has to be started the old fashioned way by wrapping the rope around the flywheel that being said it's still not too bad to start one or two pulls even on the coldest day. Has forward assist and really eats the snow. Very effortless. Located in Fairmont asking \$100. contact

no.
