

# LATHEMILL TOOL POST GRINDERPOLISHER (150 USD)

Location **Oregon**  
<https://www.genclassifieds.com/x-282721-z>

I have a very large heavy duty tool post grinder. I got this at an auction awhile back but I don't think I'll ever use it and it's taking up room in my shop.

unfortunately I don't know the brand or model there are no tags or markings anywhere on it. It has a 1 hp HEW 480v 3 phase motor on it with a 8" x 1 1/2" scotcbrite style abrasive wheel on it. the compound also moves with a manual crank or an air cylinder inside the unit. Also the base swivels from side to side. measures 26 x 17 x 16 inches and weighs about 250 lbs so it is made to go on a very large lathe. that's about all I know about it, I've included lots of pictures

If interested, Call text or email Dan 503-nine nine one-7141  
Asking \$150 obo or trade for? Let me know what you.
