I recently bought a car with these on it and it's too loud for my taste. They're fairly new, as is the rest of the exhaust. I'm looking to trade for a quieter set of performance mufflers. Preferably flow masters but I'll entertain other offers. Must be 2.5", NOT FACTORY TAKE OFFS. I can throw in cash for the right deal. Bring em over, I'll cut these beasts off with the quickness, and you can be on your way. The car is a driver that needs to not beckon the man, So I'm not taking cash offers at this time. Any ideas or advice is appreciated.!
