One year old male doberman black and red utd on shots. Ears cropped tail docked Good with children but clumsy no food aggression. Basic obedience trained, not good with cats or small dogs. He is house trained and I prefer he goes to a home where he will be inside but also have time to play outside as that is what he loves. He needs lots of attention and loves being with his people. I reserve the right to refuse the sale he is a great dog and will not go to just anyone. He is being rehomed due to no fault of his own. He dose not have papers but is pure breed he is neutered he comes with several things. His Rehoming fee is \$500 that is around what I paid for him plus added expenses if you can't afford that then I am not sure you can afford his care. Please message of you have any further
