Hi.
I am looking to hire the best IT Forensic Professionals for my new company called Cybersphere. Your MUST be fast, good, read, understand, and be able to write English. Basic certifications and/or skills must include: 4-7 years in IT Forensics, CCFP, GIAC, CCFE, CHFI, CEH, etc. Our work can range from doing cases for financial institutions to doing cases for government agencies. My business registration papers, licenses, and website are in the process and should be done by the end of this week. I will show them to you if you decide to get hired on to my company. I have established some clients last week and made some pretty good capital by doing some of their cases. If you are interested, please respond to this posting. Qualified candidates will receive an assessment from me to show me what their skills are. Please monitor your e-mail. If you are hired on, you will receive a $5,000 sign -on bonus. Good!
