Hi, I am looking to hire someone who can install one additional electric outlet, an exterior digital cable antennae and several cable outlets. I have a small fitness room of 6 machines and I have one of them working well with a exterior digital antennae. I would like to hook up the other machines but this requires I install an inline cable amp and splice all the machines together.

I need someone who can do this, preferably sooner rather than later. The company who does the work needs to agree to the following:

Please email me if you are interested in this work and available to start.
