

13ft flat boat with 40hp yamaha (2000 USD)

Location **Mississippi**
<https://www.genclassifieds.com/x-315554-z>

1986 fisher marine 16ft flat boat. Has a rebuilt 40 horse yamaha used 1 season since rebuild. Boat comes with 2 anchors on quick release/retrieve spools. Has bow and stern storage. Has rod storage on gunnel that extend through under the front casting platform. Also has 3 rod holders on side console. Has automatic bilge, navigation lights and aerated live well to keep the croakers fresh. Also has a movable fish/depth finder that attaches to gunnel where you can have wherever you are sitting to view. Boat runs about 32 mph according to my handheld gps.

Needs an impeller installed! I went to use the boat last year and started it and as soon as I saw the flow was weak I shut it down. I never got around to installing it cause I fish more with my father in law offshore. Not looking to trade and I do NOT need help selling!!! Price is negotiable cause I know it will take a few dollars to get it water.
