

# Bully Dog Power Pup 40502 Diesel Tuner Cummins Duramax Power Stroke (250 USD)

Location **Idaho**  
<https://www.genclassifieds.com/x-315696-z>

I bought this Triple Dog Downloader because I needed a tuner I could change settings on while driving or towing. It has worked great on 2 of my 7.3l trucks, a 2000 and an 01. Makes your truck much more fun to drive, and with less smoke than many other brands. I used to run a Diablosport, and that made a lot of black smoke. While a lot of guys like that, it really is just wasting fuel. I have switched to a custom-programmed chip, and am selling this unit. It has been completely un-installed as is ready for the next truck!

If you have a Ford, watch out for the older Triple Dog with the white face; it does NOT do 7.3, only 6.0, no matter what the owner may think! This unit can also check and clear codes, as well as a bunch of other settings, depending on what truck you have.

This unit works for Ford, Chevy, and Dodge diesel trucks, with these applications:

03-07 Dodge 5.9l Cummins  
 99-03 Ford 7.3l Power Stroke  
 03-07 Ford 6.0l Power Stroke  
 01-07 Chevy 6.6l Duramax

Comes with all of the original stuff, including the OBD-II connection cable, USB cable, and plastic bag with the manual, warranty, brochure etc., and also the embossed logo decal. One of the threaded nuts for the cable is missing, but it doesn't affect function. You could get one from a computer supply, but I rarely check since I have a case with 100 of them. Call or email, thank you.
