Music to your eyes, necklaces and soft bracelets.
 Styrofoam body form covered by hand with paper.
 Just made this one recently, and working on the next one.
 I do have one for my self .
 It's a great necklaces and soft bracelets holder, or just a cool room decoration.

It's not heavy, but solidly made. Not washable.

The body itself 11" inches tall, 4x5 on the bottom + 7" pedestal total 19" tall, and of course it's 3D.
 It's a great jewelry display and center piece for a bedroom.

Can ship to another state
