A couple of years ago my wife and I were looking at finding a source to move her much-cherished piano that she had for 40 years.

It was kind of a big deal to her, yet we didn't want to spend a lot to have it done. We called several movers and were a little surprised at how much they quoted. One guy's estimate was several times over what we eventually got and it wasn't like this was a grand piano, though it was heavy.

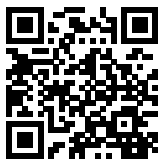

Then we called Archie of Advanced Moving Systems. It was an attractive quote- the best we had at \$175 for this particular move, but my wife wanted to make sure we weren't compromising anything because of the lower price. Archie assured me it would be moved carefully and skillfully.

On the day of the move I noticed he had a lift that placed it on his truck smoothly. They wrapped it in moving blankets and plastic-wrapped it as well. She was happy. I was happy.

What Archie didn't know at the time is that I'm a promoter of various local businesses in St Louis.

But I'm picky.

I don't promote just anyone. I only get behind businesses that do an outstanding job and deliver strong value for the dollar.

Good Mover

I expect you will too.

In case you're wondering, - yes, that's our piano that I took a picture of after he and another worker got it on their truck.

Check out the website I have since built for him. It will tell you more about why his company might be a great choice for you, consider him a "find" when it comes to moving, and I'm happy to tell others about

his business.
