Makeup Artist Boot Camp (March 30 - April 3)
 Airbrush Seminar (April 4)

Sponsored by Colour Box Makeup Studios and taught by 2011 Emmy nominee and 2015 Guild nominee Kerry Herta.

(for more information - including curriculum and tuition - find us online or reply to this email to schedule a free consultation)

Each day of Boot Camp is designed and taught by Colour Box founder Kerry Herta, the creative force behind some of today's most memorable faces. For 20 years, she has perfected her award-winning makeup technique and adapted it to the most current styles and production technology. Considered a master of HD techniques, Kerry remains one of the industry's busiest and most respected Makeup Department Heads.

After years of mentoring young artists -- many of them poorly trained by expensive "makeup academies" -- Kerry believes that working professionals at the height of their careers are best suited to teach their craft. Through Colour Box Makeup Studios, she shares her knowledge of the most current products, tools and techniques. Beginners and working artists alike will increase their skills, confidence and knowledge of today's makeup industry.
