It is obvious that Netanyahu is no friend of United States president Barack Obama. So, why did Obama waste his time calling Netanyahu and congratulate him on his recent victory of being reelected. This man snubbed the president when he came to the USA and went to congress to give a speech. It was second only to shoving a knife in the heart of this United States president and should not be rewarded. Now, the voters in Israel reelected Netanyahu which means they condone the snub of the American president. ' Whether you like Obama or not ,he is the president . Consequently the United States government should stop all aid to Israel both material or financially, immediately. Israel is apparently a user and no friend of the USA. Netanyahu and the voters just proved that. This is no laughing matter. Ask yourself if the USA president went to Israel and spoke to the politicians but, bypassed Netanyahu, what??
